

Rank	id	Description / Missing features	Points
1	C90	Copying of sheet layouts	267
2	C7	Spot Elevations should have references in order to align them	253
3	c118	Implementing more wished features	253
4	C32	Dimensioning of all visible edges of elements in every view	245
5	C6	Aligning text to other text elements	239
6	C47	Toposurface feature should include the creation of excavations and overwhelming building structures, e.g. underground garage	232
7	C5	Parameter for rotation of texts	226
8	C28	Curved section along an axis / gradient	218
9	C27	Printing of Schedules and Material Takeoffs	213
10	C88	Line Patterns with text elements e.g. ---X---X---X---	198
11	C95	Rotating of Tag elements	198
12	C1	Visibility of edges	197
13	C50	Creation of walls with angle of inclination	194
14	C29	Pdf import and export without using a third party-software	191
15	C18	Importing and Exporting of Schedules to Excel	184
16	C75	Formatting of sums of Schedules and further use in formulas	180
17	C34	Used voids should be made visible even if they are not selected	175
18	C23	List of constrains	169
19	C110	Printing of sheets with different sizes as batch print	169
20	C107	Segmentation of all elements e.g. walls and beams without losing information	168
21	C74	Combination of Cut Patterns with Solid fills and especially hatchings of Walls	165
22	C77	Changing and controlling referenced levels afterwards, e.g. of wall openings	165
23	C106	Splitting of floors along a dividing line	165
24	C9	Instance parameter for heights of openings (Sill, Head and Center)	155
25	C61	Stairs: Creation of notches in the upper support (curtail step)	155
